Boarding Principles and Practice

Date: September 2024 Written by: Deputy Principal Review date: September 2025

BOARDING PRINCIPLES

- The development of an all-round person and the communication of values are vital.
- All boarders are supported to develop physically, spiritually, intellectually, morally and socially.
- Key values are compassion, contribution, diligence, honesty, resilience, respect and responsibility and these values are at the core of the school education and boarding life.
- Boarding is based upon mutual respect for all its members.
- There is equality of opportunities and respect for all boarders, regardless of ethnicity, culture, gender or disability.
- Each boarder and each member of staff is treated as an individual and with respect and consideration by other students and by staff.
- Staff and boarders acknowledge the right of each other to privacy.
- Each boarder has the right to be able to work, play and relax free from abuse, intimidation, harassment, teasing and bullying.
- Considering the boarders are from overseas and far away from their families, links with parents are an essential part of the support and development of boarders.
- Students are able to develop friendship that will last their lifetime

BOARDING AIMS

- Develop the whole person, a desire for truth and a respect for others.
- Provide an open and trusting ethos in which each boarder feels able to approach any other member of the community, both staff and students, confident in the knowledge that he or she will be treated and respected as an individual.
- Create an atmosphere of tolerance, openness and trust in which teasing, harassment and bullying would find great difficulty in developing.
- Safeguard and promote the welfare of each boarder, by providing an environment that is, as far as possible, free from physical hazards and dangers of any sort.
- Provide accommodation that is comfortable and suited to the needs of boarders, according to age and maturity, and which provides adequate level of privacy.
- Develop boarders' responsibility for self, for others and for the environment.
- Develop boarders' qualities of leadership and ability to work as a team.
- Encourage boarders to contribute to the needs and welfare of others in the house and school, as well as those in the wider community.
- Provide suitable conditions for boarders to feel able to turn to a member of staff to share the good things in their lives, as well as seeking advice, counselling and support during times of difficulty.

2. Staff Training

Induction for new Boarding Staff is co-ordinated by the Head of Boarding. During the term prior to staff joining the boarding team, they will if possible, be invited to shadow current staff or at least spend time in the Boarding House.

The Head of Boarding will monitor the progress of new boarding staff in conjunction with the school Induction Programme, in their first term and regular, informal meetings (at least once a month) will be held to give feedback on both sides. The annual appraisal of boarding staff will refer specifically to the boarding element of their duties.

3. Safeguarding

Felixstowe International College takes the safeguarding and child protection of its students very seriously. Designated Safeguarding Lead and the Alternate Designated Safeguarding Lead must have Designated Safeguarding Lead training (renewed every 2 years maximum) and all boarding staff must do child protection training (renewed every 3 years maximum). Any new staff who arrive between official courses must undertake an online child protection training and a safeguarding induction with the DSL before carrying out boarding duties.

Boarding Staff must report any concerns regardless of how small or large they may be perceived to the DSL (or ADSL in her absence) as soon as possible. All concerns must be recorded in the Record of Concern Form.

4. Room allocation

Girls and boys accommodation is strictly separate and students are allocated to rooms generally based on their age and year group. Special requests for accommodation will be considered and granted wherever possible if there is a good reason.

5. Security / Fire protection / General Health & safety

5.1 Boarding / Fire list

Accurate preparation and checking of the Boarding / Fire list is of paramount importance and numbers are checked and double checked. Boarders are registered once in the morning and once again the afternoon by Principal/Deputy Principal/Registrar; there is

one final check when the Boarders are in bed just before lights out where the House Parent(s) on Duty checks each room to make sure the boarders are all in their rooms before lights out. If there is any doubt, then a further check will be made, if necessary using a torch to check individual faces. Names and faces are checked by the Boarding staff when students return from late trips. All students have to seek permission to go out at all times and sign out and in. House parents are to check at regular intervals that the students are back when they are supposed to be. If there is any student who is not in the building, they should contact Deputy Principal and if they are still unaccounted for, the Missing Children Policy will be followed.

5.2 Fire Precautions and Training

All fire doors must be kept closed and all corridors cleared of any obstructions before staff leave the Boarding House.

At least one fire drill will be held every term to ensure that all students and Boarding staff are absolutely clear about what they should do in the event of emergency, in accordance with the School's Escape plan. At least one fire drill that is overnight to identify any risks if fire alarm goes off while the students are fast asleep. Students are also shown their first and secondary evacuation routes during the Induction. A review of every drill is recorded and evaluated by SLT.

5.3 Risk Assessment

All Boarding staff are responsible for ensuring that the Boarding House is as safe as possible. In addition to written risk assessments, an on-going, dynamic system of risk assessment will always be in operation. Any immediate, urgent hazards should be neutralised by whatever action is appropriate and reported to the SLT as soon as possible. Less urgent and more minor hazards should be reported as appropriate and risk assessment documentation updated.

The process for identifying hazards and preparing risk assessments is as follows:

- 1. Identify the hazard
- 2. Assess the risk
- 3. Evaluate and assess risk levels i.e. what is the likelihood of something happening and how severe is the harm likely to be
- 4. If possible, isolate or remove the hazard. If this is not possible, put in place control measures to reduce the risk to an acceptable level of likelihood and severity. If it is not possible to reduce the risk to an acceptable level, either remove students from the hazard, or do not undertake the activity in question.
- 5. Communicate /train staff and students so that control measures are fully understood and observed.
- 6. Monitor the hazard and make changes as necessary.

- 7. Complete risk assessment documentation. One copy to be kept by the in the Boarding area and one copy to be lodged in the main office.
- 8. House Parents should report any concerns/issues over Hazard to Head of Boarding

6. Support for students who are unwell

6.1 Medical rooms

There are two sick rooms for boarding students, one for the girls and one for the boys, and a medical room used during the day both for all students. Medical room and the sick rooms are close to a toilet and a bathroom (for sick rooms only) which will be designated for the use solely for the students who is unwell. A notice will be put on the door(s) and other students and staff will use alternative toilets and bathrooms

6.2 Medication/First Aid training

All house parents are first aid and medication trained in order to provide.
